Step 1 — USB Port Board

- Remove the four plastic covers and rubber feet from the corners of the keyboard.
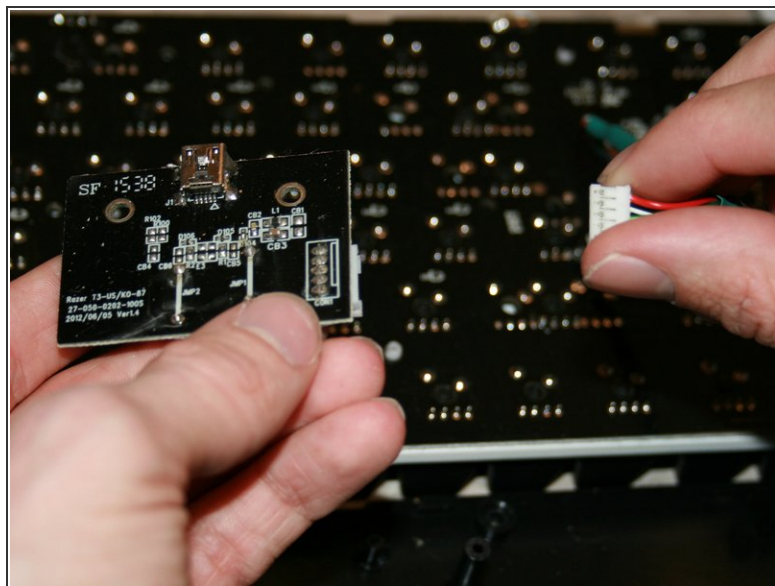

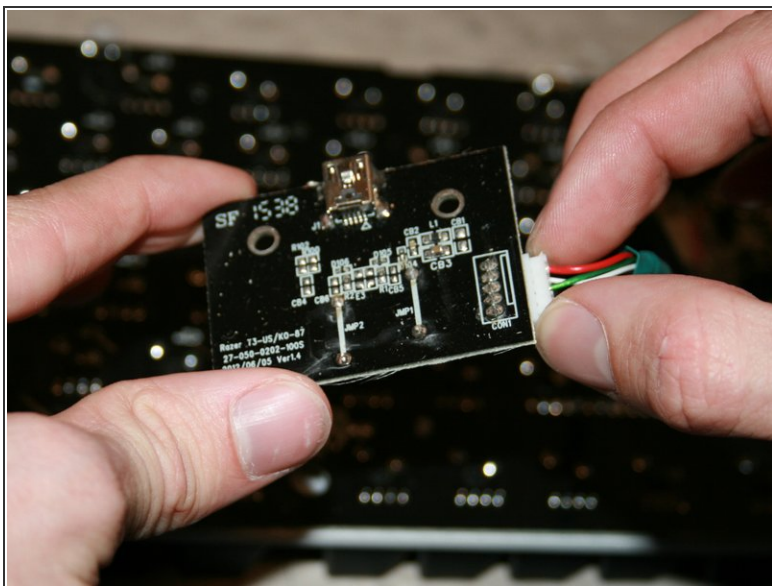

- Remove the four screws.

Step 2

- Turn the keyboard face up.

- Remove the four screws which attach the keys.

- ⓘ Note the orientation of the white plastic cover relative to the LED at the bottom of the board.

Step 3

- Locate the USB at the top of the device.

- Remove the two screws attaching the USB.

Step 4

- Unplug the cable connecting to the USB board.

- Plug the new USB board into the slot.

- Replace the screws in the USB board.
