🔧 **TOOLS:**

- Phillips #0 Screwdriver (1)

www.iFixit.com

Step 1 — Battery

- Open the latch on the right side that secures the battery in place.

- Open the latch on the left side that secures the battery in place.

- Now remove the battery.

Step 2 — Access to the components 1

- Use the Philips screwdriver to remove the two screws on the bottom cover.

- Check the markers to determine how to remove the cover.

- Now remove the cover as prescribed by the markers.
