INTRODUCTION

A step-by-step guide for motion detector replacement on a Ring Spotlight Cam Battery. Please be sure to follow the following steps. It will take approximately 15-30 minutes to replace the motion detector lights.

TOOLS:

- Ruler (1)
- Phillips #1 Screwdriver (1)

This document was generated on 2020-01-09 11:33:12 PM (MST).

Step 1 — Motion Detector

- Turn Ring Spotlight Cam to the posterior side and flip upside down

Step 2

- Press down on top button and open upward

Step 3

- Open spotlight Cam upward and remove the two screws down the middle with a Phillips #1 screwdriver.

Step 4

- Remove the two screws down the middle and lift the middle component off

Step 5

- Remove the remaining 10 screws that are around the border under the tape.

Step 6

- Gently close the top of the lid

Step 7

- Remove the top lid and replace the LED light

To reassemble your device, follow these instructions in reverse order.
