INTRODUCTION

This guide is here to help replace and repair your fan assembly unit.

TOOLS:

- [Phillips #00 Screwdriver](#) (1)
- [Spudger](#) (1)

Step 1 — Fan Assembly

- Using the Phillips #00 screwdriver, remove the 10 screws holding the back panel together.
- Remove the back panel.

Step 2

- Using the Phillips #00 screwdriver, remove the 4 total screws (2 per each fan).
- Disconnect the cable connections linking each fan to the motherboard with a spudger.
- Remove each fan.

To reassemble your device, follow these instructions in reverse order or follow steps 4 to reassemble your laptop.
