Step 3 — Camera

- Remove the (2) 4.1 mm screws on screen.
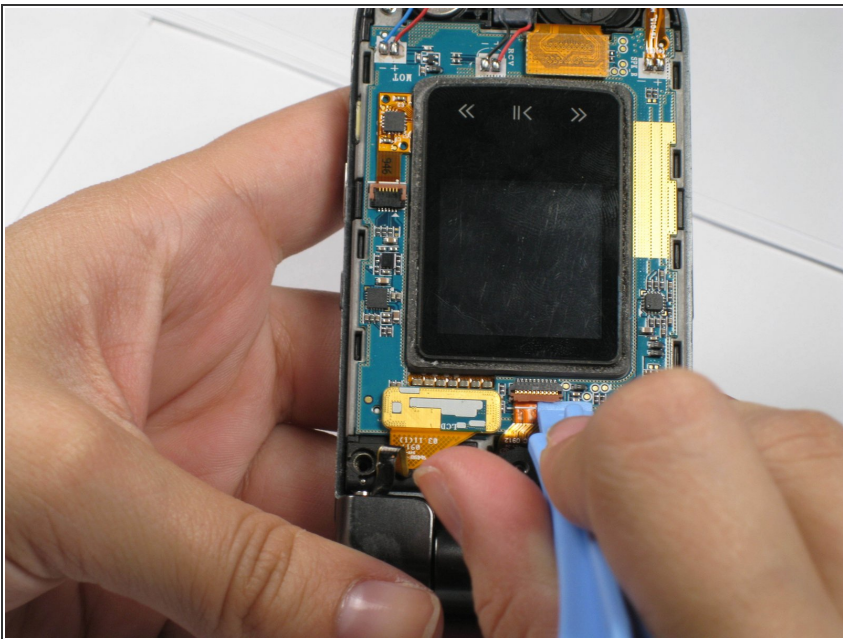

Step 4

- Remove front outside casing with plastic opening tools.

Step 5

- Use tweezers to remove the camera from its holding slot.

Step 6

- Use a plastic opening tool to lift the tab that holds the camera ribbon in place.
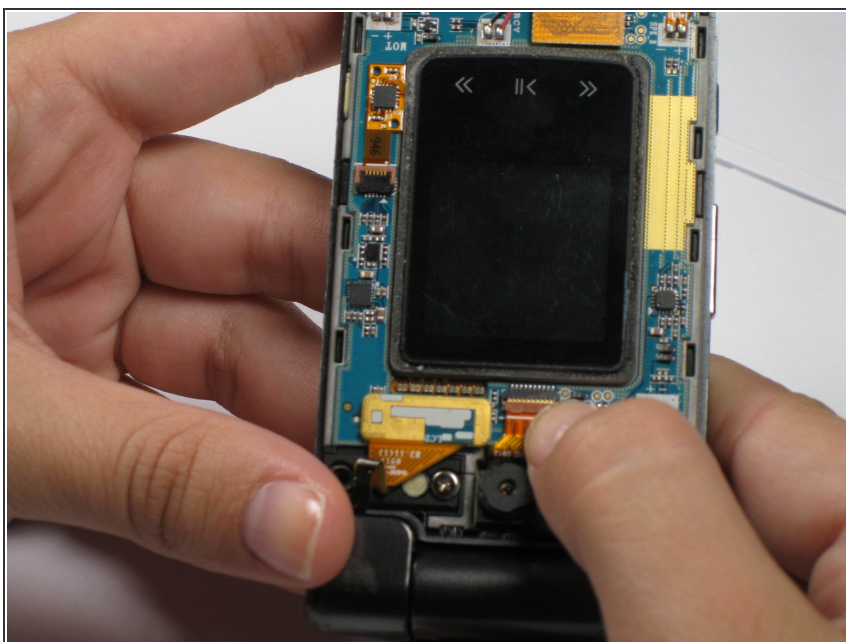

Step 7

- Use tweezers to remove the camera.

Step 8

- Slide ribbon of new camera under the same tab.

Step 9

- Close the tab down onto the new camera ribbon.

Step 10

- Use tweezers to put the new camera into the camera slot that previously held the old camera.

⚠ WARNING: Do not touch the camera lens as it will easily scratch or smudge.

To reassemble your device, follow these instructions in reverse order.
