

Samsung BD-E5400 Outer Cover

This guide will show you how to remove the outer cover from your device, in order to complete further internal repairs.

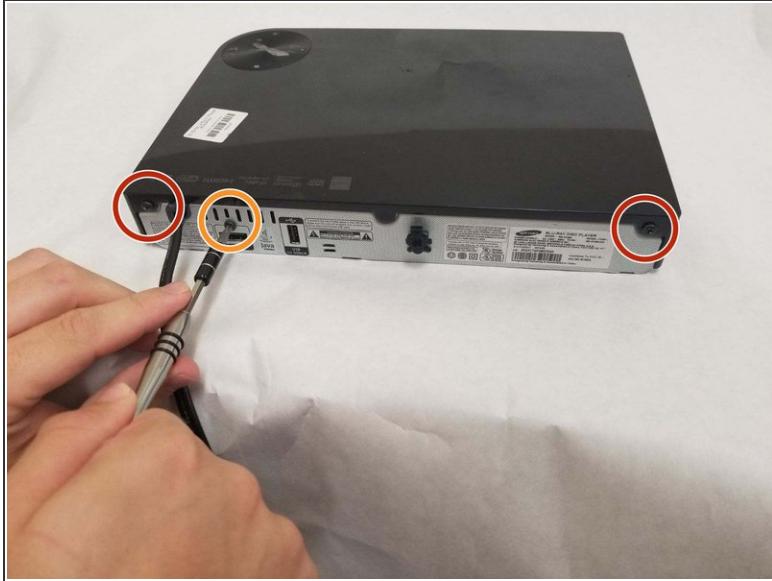

Written By: Cameron Herring

 **TOOLS:**

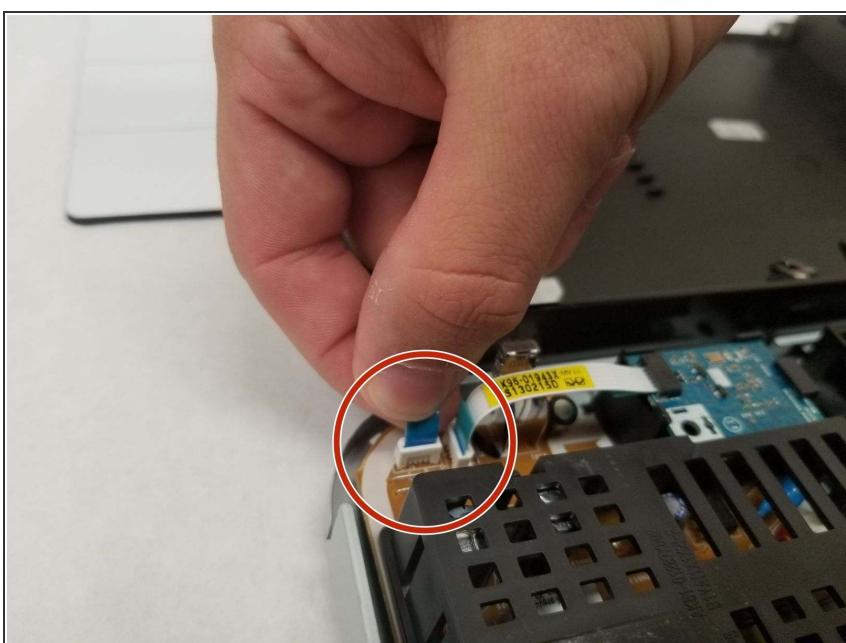

- Phillips #1 Screwdriver (1)

Step 1 — Outer Cover

- Remove the two 10mm Phillips #1 screws.
- Remove the one 8 mm Phillips #1 screw.
- Carefully lift up the cover and lay back, to ensure that you do not damage the attached cable.

Step 2

- Unplug the small wiring bundle attaching the body of the device to the cover.
- Lay the cover aside.
