

Samsung Droid Charge SIM card Replacement

Remove and Replace the SIM card on your Samsung Droid Charge.

Written By: Luke Gordon

INTRODUCTION

In this guide, you will learn how to remove and replace the SIM card for the Samsung Droid Charge.

Step 1 — Rear Cover

- Open up the back case on the phone from the groove in the bottom of the phone.
- *(i)* You can do this by inserting a fingernail or similarly thin object into the groove and pulling up with mild force.

Step 2 — SIM card

- Slide the SIM card out of its casing by pushing on it and sliding it upward.

To reassemble your device, follow these instructions in reverse order.
