

Samsung Galaxy J3 Luna Pro Phone Screen Replacement

This guide will go over how to replace the phone screen to the Samsung Galaxy J3 Luna Pro.

Written By: Brandon Mendoza

INTRODUCTION

The touch screen is the most interactive feature on any smartphone. Although they are multifaceted, phone screens are not indestructible. Broken phone screens are common in today's world. This guide will show a step-by-step process of how to replace the phone screen on the Samsung Galaxy J3 Luna Pro.

TOOLS:

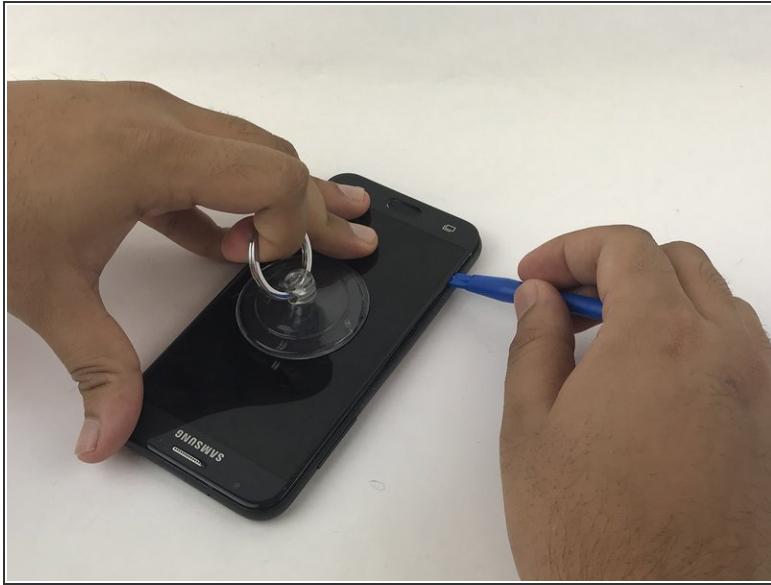

- [Spudger \(1\)](#)
- [Suction Handle \(1\)](#)

Step 1 — Screen

- Begin by turning your phone off.
- Turn the phone over and Remove the battery.

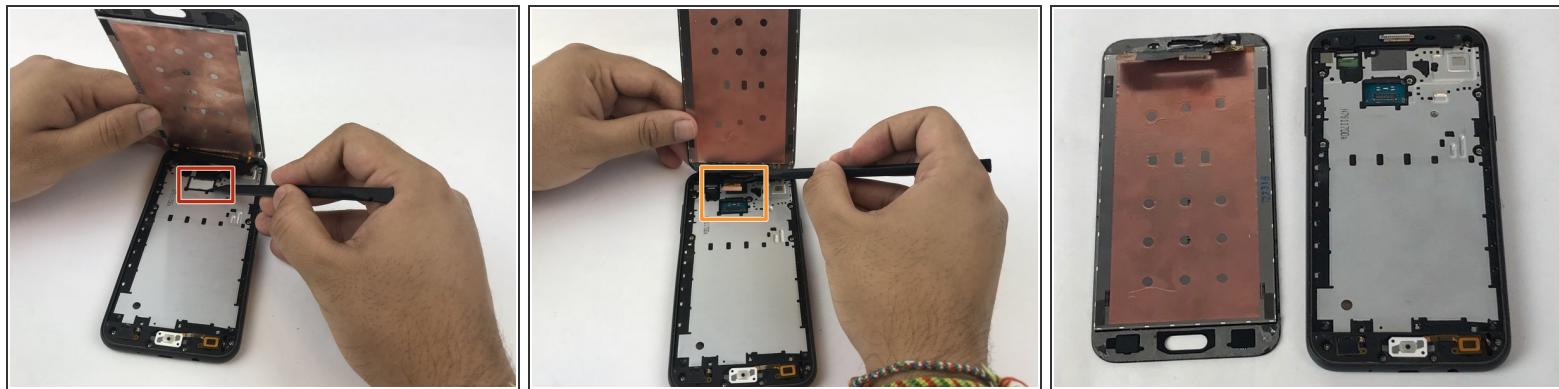

Step 2

(i) Heating the surface of the screen will help with prying it off. It is recommended to use the iOpener.

- Place the suction cup on the phone screen and press down.
- Insert the plastic opening tool into the crease between the phone and the screen.
- Gently work the opening tool around the phone perimeter while stabilizing the phone screen with your opposite hand.

Step 3

- Remove the plastic cover that protects the screen strip
- Remove the phone screen strip
- Attach new phone screen in place of the old one.

To reassemble your device, follow these instructions in reverse order.
