

# Samsung Galaxy J7 Vibration Motor Replacement

This guide will replace the Vibration Motor in the device.

Written By: Justin Thompson

## Step 1 — Back Cover

- Take off the back by pulling on the tab near the top left of the back of the device.

## Step 2 — Back Panel Disassembly

- Take out the battery before unscrewing the screws.

### Step 3

- Using the Phillips screwdriver bit size 000, unscrew out all 10 4.19mm screws.

### Step 4

- Use the iFixit Opening Tool to lift up the back, to disconnect the back with the inside of the device.

To reassemble your device, follow these instructions in reverse order.
