

# Samsung Galaxy Note 3 Display Assembly Replacement

If you need to replace the display assembly, use this guide to get it by itself.

Written By: Brittany Gail

# INTRODUCTION

This guide shows how to remove everything from the display assembly.

## TOOLS:

- iFixit Opening Tools (1)
- Spudger (1)
- Tweezers (1)
- Phillips #00 Screwdriver (1)
- iOpener (1)
- iFixit Opening Picks set of 6 (1)

## PARTS:

- [Galaxy Note 3 \(T-Mobile/AT&T\) Screen](#) (1)
- [Galaxy Note 3 \(Sprint/Verizon\) Screen](#) (1)
- [Galaxy Note 3 Vibrator \(Verizon/Sprint\)](#) (1)
- [NuGlas Tempered Glass Screen Protector for Galaxy Note 3](#) (1)
- [Galaxy Note 3 AMOLED and Digitizer](#) (1)

## Step 1 — Remove the rear case

- Insert a fingernail or plastic opening tool in the gap between the rear case and the base of the phone.

## Step 2 — Remove Case from the Base

- Slide your fingernail or plastic opening tool along the edge of the rear case.
- Lift the case gently from the base.

## Step 3 — Battery

- Insert a fingernail or plastic opening tool into the small gap between the battery and the phone base.
- Lift the battery out of its recess.

## Step 4 — S Pen

- Place your fingernail in the groove of the stylus pen.
- Pull the stylus pen away from the phone.

## Step 5 — Unscrew Back Chassis

- Remove the twelve 4mm Phillips #00 screws from the back chassis.

## Step 6 — Remove Back Chassis

- Insert the plastic opening tool into the Stylus Pen placement holder.
- Lift the plastic opening tool so that the midframe separates from the base.

## Step 7 — Screw Removal

- Remove the single screw beside headphone jack.

## Step 8 — Unfasten Clips and Cable Connectors

- Use tweezers to remove both antenna clips.
- Use a spudger to disconnect six cable connectors.

## Step 9 — Motherboard Removal

- Pull up on the motherboard with tweezers.

## Step 10 — Spudger Tool Placement

- Insert the spudger into the headphone jack.

## Step 11 — Lift to Separate Headphone Jack

- Lift the spudger to separate the jack assembly from the motherboard.
- Pull to remove.

## Step 12 — Metal Bracket Removal

- Remove the metal bracket located in the top left hand corner.

## Step 13 — Remove Vibrating Motor

- Remove the vibrating motor by pulling up on it carefully with the tweezers.

## Step 14 — USB Port Removal

- Lift USB port from the front assembly using the tweezers.

## Step 15 — Display Assembly

- You are now left with the display assembly.

To reassemble your device, follow these instructions in reverse order.
