

# Samsung Galaxy Note Headphone Jack/Earpiece Speaker Assembly Replacement

Replace the Headphone Jack/Earpiece Speaker assembly in your Samsung Galaxy Note.

Written By: Sam Goldheart

---

## INTRODUCTION

Use this guide to replace the headphone jack and earpiece speaker assembly of your Samsung Galaxy Note.

---

### TOOLS:

- [iFixit Opening Tools](#) (1)
  - [Spudger](#) (1)
  - [Phillips #00 Screwdriver](#) (1)
  - [Tweezers](#) (1)
-

## Step 1 — Stylus

- Grasp the cap of the stylus and remove it from its slot in the midframe.

## Step 2 — Rear Case

- Pry with a plastic opening tool, or your fingernail, in the divot to the right of the rear-facing camera, near the volume rocker.

### Step 3

- Lift and remove the rear case from the phone.

### Step 4 — Battery

- Insert your finger in the notch of the battery compartment.
- Press the battery toward the rear facing camera while pulling outward.

## Step 5 — MicroSD Card

- Use the flat end of a spudger, or your fingernail, to press the microSD card slightly deeper into its slot until you hear a click.
  - After the click, release the card and it will pop out of its slot.
- ☑ For reassembly, push the microSD card into the slot until it clicks in place.

## Step 6

- Remove the microSD card from its slot in the midframe.

## Step 7 — SIM Card

- Use a plastic opening tool, or your fingernail, to push the SIM card out of its compartment.

## Step 8

- Slide the SIM card out the rest of the way with your thumb and remove it from the device.

## Step 9 — Midframe

- Remove the nine 3.4 mm Phillips #00 screws securing the midframe to the display assembly.

## Step 10

- Insert your plastic opening tool to the left of the power button between the midframe and the front panel assembly and pry.

## Step 11

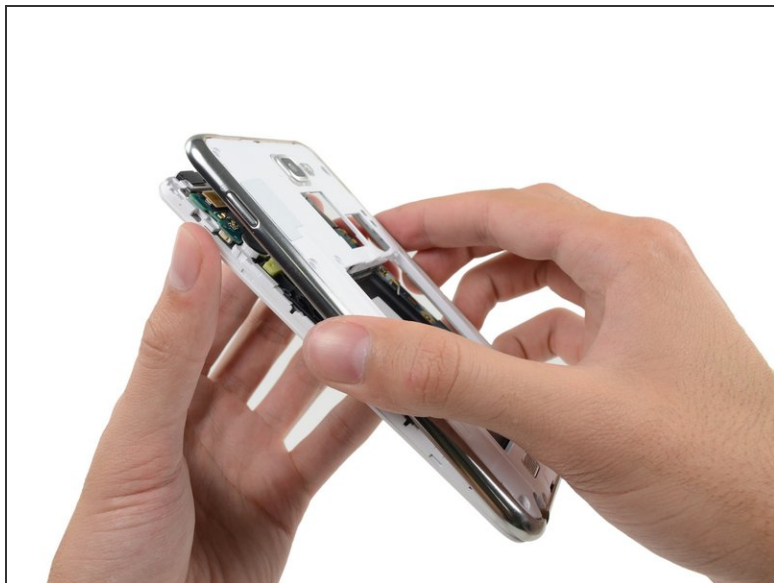

- Slide the plastic opening tool down the seam.

## Step 12

- Insert your plastic opening tool to the left of the headphone jack between the midframe and the display assembly.
- Slide the opening tool along the top edge of the phone.
- Continue to run the plastic opening tool around the perimeter of the phone until the midframe is separated.

## Step 13

- Remove the midframe from the display assembly.

## Step 14 — Upper Display Assembly Bracket

- Use the flat end of a spudger to disconnect the headphone jack/earpiece speaker assembly cable connector.

## Step 15

- Remove the two 3 mm Phillips #00 screws securing the upper display assembly bracket.

## Step 16

- Use a pair of tweezers, or your fingers, to remove the upper display assembly bracket.

## Step 17 — Headphone Jack/Earpiece Speaker Assembly

- Use the flat end of a spudger to disconnect the headphone jack/earpiece speaker assembly connector.

## Step 18

- Use the point of a spudger to pry the headphone jack out of its recess in the display assembly.

## Step 19

- Use a pair of tweezers, or your fingers, to remove the headphone jack/earpiece speaker assembly from the display assembly.

To reassemble your device, follow these instructions in reverse order.
