INTRODUCTION

If you are having trouble with the volume and quality of sound with your tablet you may need to replace your speakers. This guide will help you safely replace the speakers in your tablet.

TOOLS:

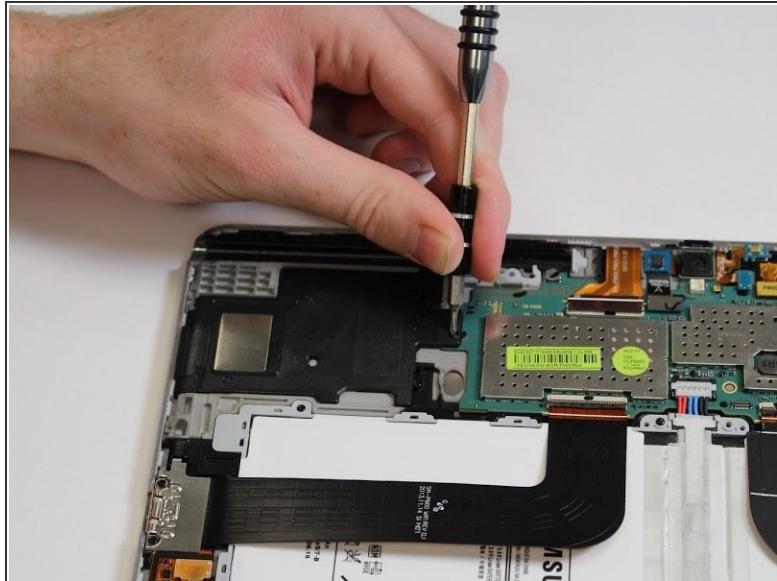

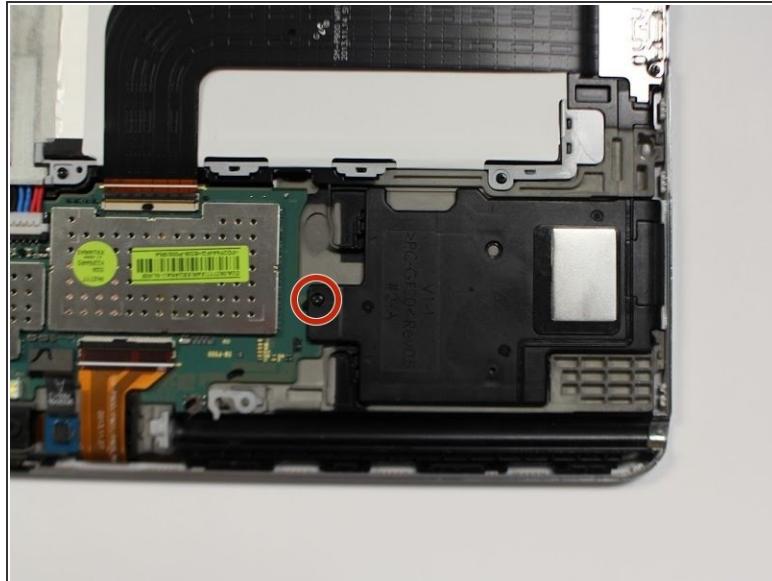

- [Magnetic Project Mat \(1\)](#)
- [iFixit Opening Tools \(1\)](#)
- [Phillips #00 Screwdriver \(1\)](#)

Step 1 — Speakers

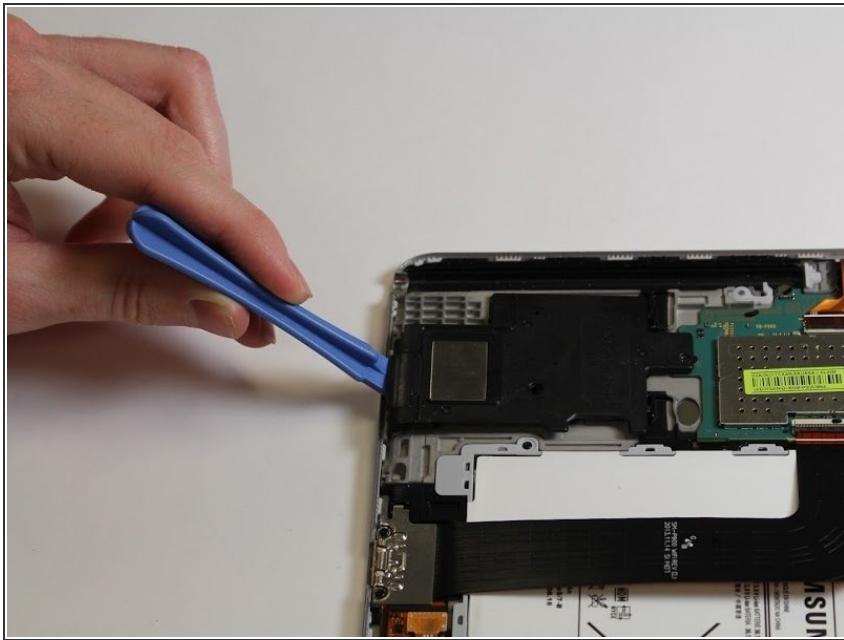

- ⓘ Make sure the device is powered off before starting repair.
- Carefully remove the back cover with the blue opening tool.
- ⓘ It is best to start with one corner and work your way around the device slowly.

Step 2

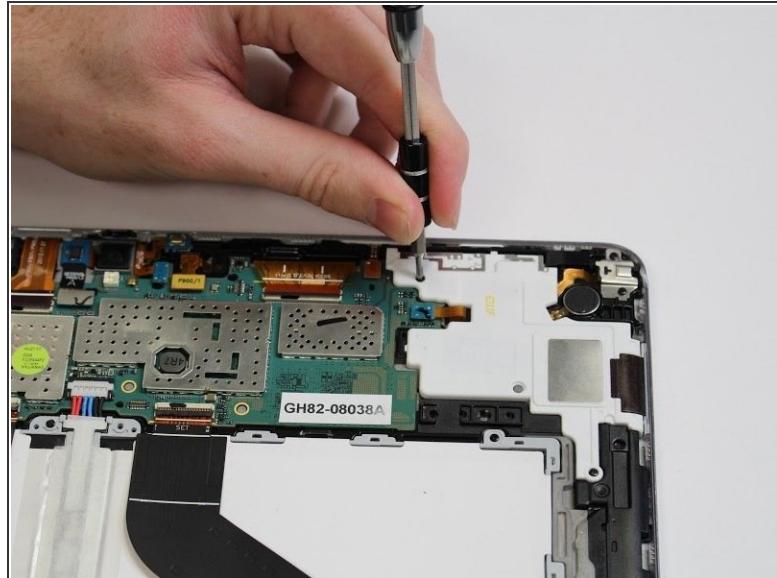

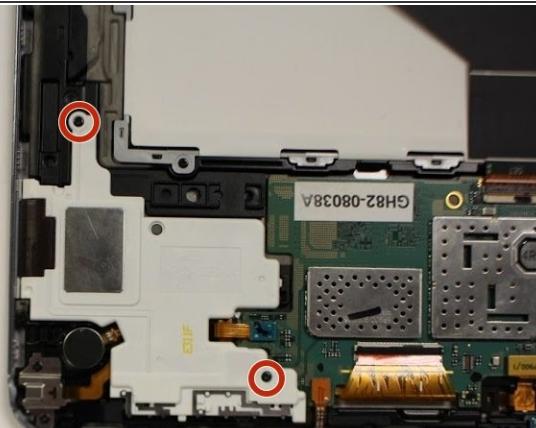

- Remove the one 3mm Phillips #00 screw securing the black speaker.

Step 3

- Using the plastic opening tool, pop the black speaker up and away from the device.

Step 4

- Remove the two 3mm screws securing the white speaker with the Phillips #00 screwdriver.

Step 5

- Using the blue opening tool pop the white speaker up and away from the device.

To reassemble your device, follow these instructions in reverse order.
