Step 1 — SIM Card Tray

- Insert a SIM card opening tool, SIM eject bit, or a paperclip into the small hole on the top edge of the phone.
  - (i) There are two holes on the top edge. The correct hole is within a long rectangular cutout.
- Press in the opening tool to eject the tray.
- Remove the SIM/SD card combo tray from the phone.

To reassemble your device, follow these instructions in reverse order.
