INTRODUCTION

This replacement guide will walk you through how to replace the battery on the Samsung Galaxy Tab 3 Kids. First step to do, you will need to remove the back case of the tablet.

TOOLS:

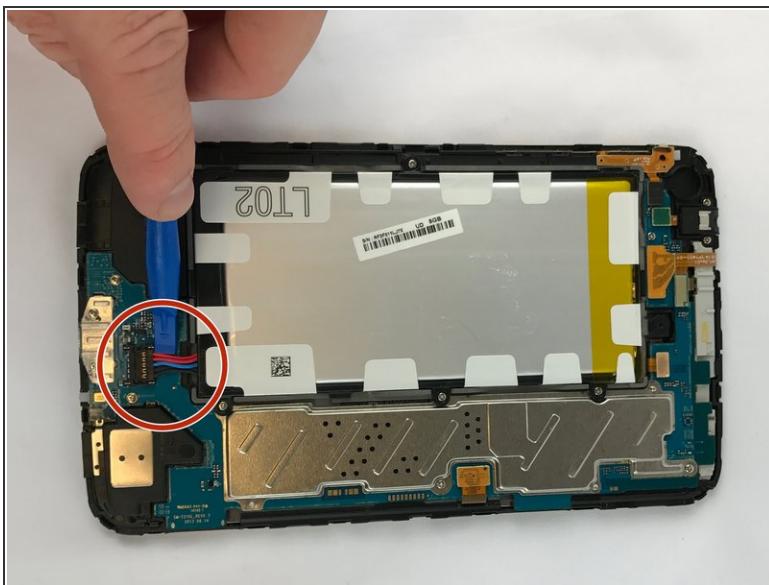

- [Phillips #000 Screwdriver](#) (1)
- [iFixit Opening Tools](#) (1)

Step 1 — Battery

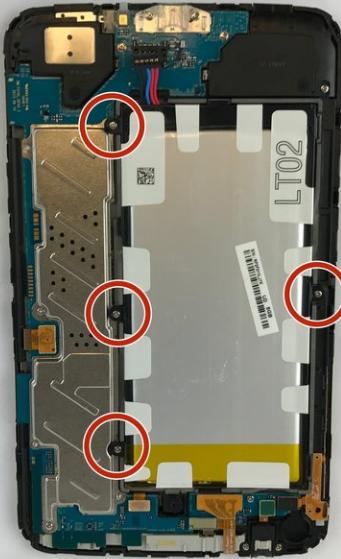

- Using the plastic opening tool to open up the device, wedge in the seam between the screen and the back cover. Slide the tool around all the edges and remove the screen from the back cover.

Step 2

- Unplug the battery connection carefully using the plastic opening tool.

Step 3

- Using a Phillips head screw driver "PH000", unscrew four 1.2 mm screws in the counter-clockwise direction until they come off.

Step 4

- Use your hands to gently lift the battery up to remove it. If it does not come off easy, there maybe some glue underneath the battery and may need to be pried off with the plastic splugger tool.

To reassemble your device, follow these instructions in reverse order.
