

Samsung Galaxy Tab A 9.7 Front Camera Replacement

This guide provides step by step instructions on how to replace the front camera on your Samsung Galaxy Tab A 9.7.

Written By: Makenzie D'Elia

INTRODUCTION

This replacement guide will help you easily follow the steps in order to replace the front camera on a Samsung Galaxy Tab A 9.7. The difficulty of this guide is moderate and requires special attention to details.

TOOLS:

- [iFixit Opening Tools](#) (1)
- [Tweezers](#) (1)

PARTS:

- [Samsung Galaxy Tab A 9.7 Front Camera](#) (1)

Step 1 — Front Camera

- Pry along the edge of the Samsung Galaxy Tab A 9.7 with an iFixit opening tool.

Step 2

- Insert a second iFixit opening tool along the edge and begin to pry open the back cover a little with each one.

Step 3

- Remove one of the opening tools and begin to go around the device with the other one until the back cover pops off.

Step 4

- Locate the camera at the top of the device.

Step 5

- Pull up carefully on the orange strip using the tweezers.
- ⓘ The lever holding the strip in place will pop up, releasing the camera.

Step 6

- Remove the front camera and replace it with the new part.

To reassemble your device, follow these instructions in reverse order.
