## INTRODUCTION

The front camera of the Samsung Galaxy Tab E 8.0 can be damaged if the camera is struck by a hard object. This guide shows how to replace the tablet's front camera which is attached to the motherboard.

### TOOLS:

- Tweezers (1)
- iFixit Opening Tools (1)

## Step 1 — Back Panel

- Use the iFixit Opening Tool to pry off the back case, moving the tool around the screen.

⚠ Make sure the device is off and the SD card is removed before taking off the back casing.

## Step 2 — Front Camera

- Use the tweezers to lift the switch connecting the front camera to the motherboard.
- Remove the front camera from the motherboard by lifting with the tweezers.

To reassemble your device, follow these instructions in reverse order.
