

Samsung Moment Rear Case Disassembly

This guide will show users how to remove the back casing on their phone in order to gain access to the inner parts.

Written By: Vincent Mannarino

TOOLS:

- [Phillips #000 Screwdriver](#) (1)
 - [Spudger](#) (1)
-

Step 1 — Battery

- Slide the back cover off the back of the phone to reveal the battery.

Step 2

- Place a finger in one or both of the indents by the bottom of the battery. Then pull out to remove the battery from the phone.

Step 3 — Samsung Moment Rear Case Disassembly

- Identify and remove the 6 screws on the rear case of the phone.

Step 4

- Using a spudger, separate the rear case of the phone from the front case.

To reassemble your device, follow these instructions in reverse order.
