

Samsung NP-N145-JP02US Keyboard Replacement

Keyboard replacement on a Samsung NP-N145-JP02US

Written By: Laura Denali Harbinson

INTRODUCTION

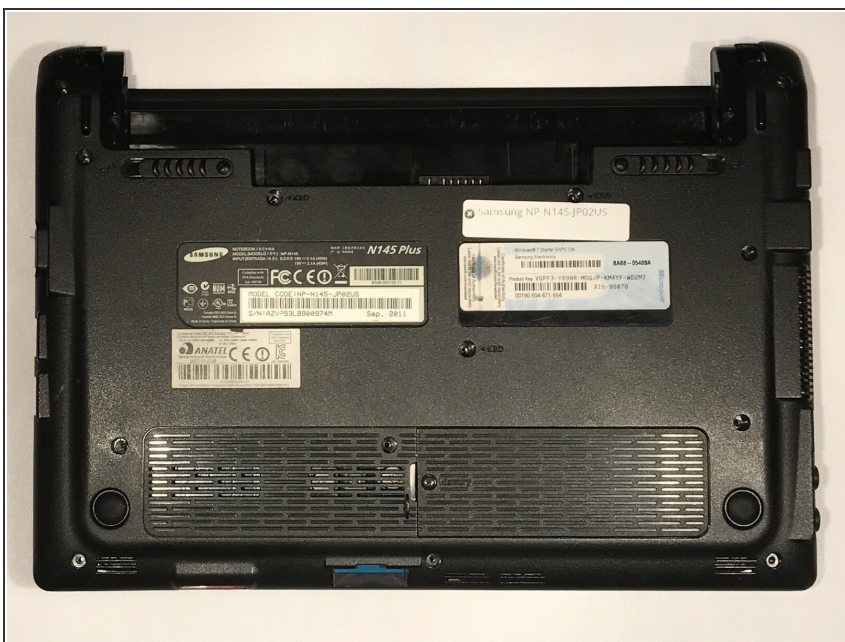

This guide will provide instructions on how to fully replace the entire keyboard on a Samsung N145 laptop. You will be given steps on how to detach the current keyboard on your device and attach a new one. You will want to perform this replacement if multiple or all keys are not correlating with what is being pushed, or does not work altogether.

TOOLS:

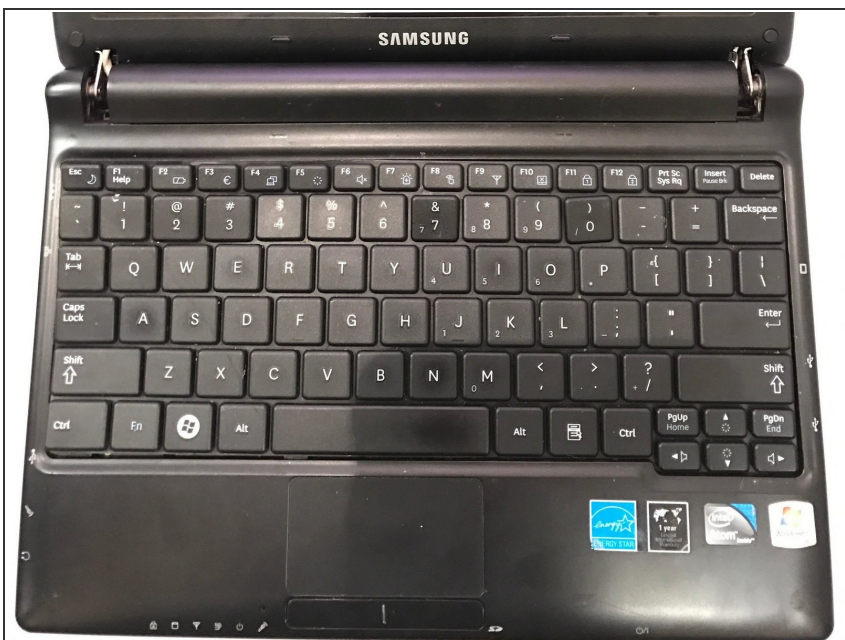

- [iFixit Opening Tools](#) (1)
-

Step 1 — Keyboard

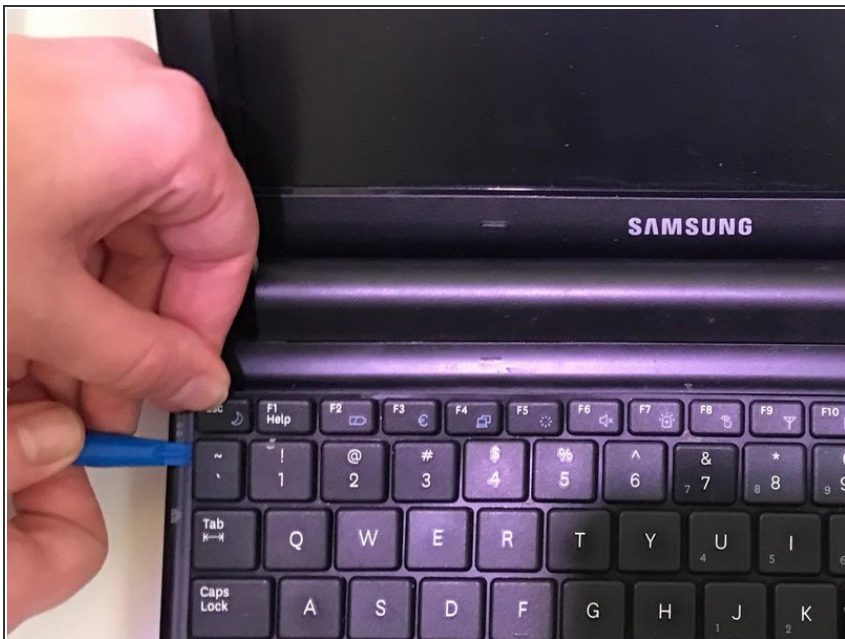

- ❗ Before starting replacement, turn off the device and disconnect all cords.
- Close the device, lay it face down, and remove the battery.

Step 2

- Open the device with the keyboard and screen showing.

Step 3

- Grab the edge of the keyboard and use a plastic opening tool to pry the keyboard upward and out.
- Use force until the keyboard pops off from the device's main frame.

Step 4

- Manually remove the keyboard from the device.

You now have a working keyboard!
