INTRODUCTION

Built -in speakers are one of the benefits of owning a laptop, so any malfunctioning or broken speakers are an inconvenience to laptop users. Rather than purchasing external speakers or wearing headphones whenever audio is needed, this issue can be remedied in a more cost effective way by installing a new speaker into the laptop. This guide will show you how to replace the speakers in your laptop.

TOOLS:

- Spudger (1)
- Phillips #0 Screwdriver (1)
