 **TOOLS:**

- Metal Spudger (1)

## Step 1 — Back Panel

- Find the white outer casing that runs along the rounded back of the bot and pry it out starting from one edge and moving to the other.
- Continue until the whole white case pops off.

## Step 2

- On the edge where the back panel meets the protective casing on the side of the bot (below the Samsung logo), pry the panel up, causing it to pop up.

## Step 3

- Continue pulling up the panel until it comes off.

To reassemble your device, follow these instructions in reverse order.
