INTRODUCTION

In order to access the keypad, you must first remove the back cover, battery and rear case from the cell phone.

TOOLS:

- Tweezers (1)

Step 1 — Back Cover

- Turn phone over in the palm of your hand, with the screen facing down.

- While grasping the bottom part of the phone with one hand, use your thumb to push the release button at the end of the phone.

- This will release the back plate latch; then lift the back plate up and out toward the other end of the phone.

- You should now be able to lift the plate completely off the phone.

Step 2 — Battery

- Place your thumb at the noched area at the bottom portion of the phone.

- Gently lift up and pull the battery out in the opposite direction.

Step 3

- Take battery out of phone.

Step 4 — Rear Case

- Hold the phone steady with one hand.

- In the other hand use a philips screwdriver to loosen and remove all 3 screws.

Step 5

- Gently lift off the rear case from the front case.

Step 6 — Keypad

- Using a pair of tweezers, grip the keypad gently.

- Lift the keypad out of the phone.

To reassemble your device, follow these instructions in reverse order.
