Step 1 — Removing the back cover

- Gently slide the cover off of the phone by pushing it upwards, in the direction of the small arrow on the back cover.
- Set the cover off to the side once you have removed it.

Step 2 — Removing the battery

- ☒ This step can be accomplished without the need of a plastic opening tool. Just use your finger if you want to.
- Wedge a plastic opening tool in between the rear end of the battery and the plastic frame.
 - Pry the battery up out of its recess and away from the phone.

To reassemble your device, follow these instructions in reverse order.
