## Step 1 — Jog Button

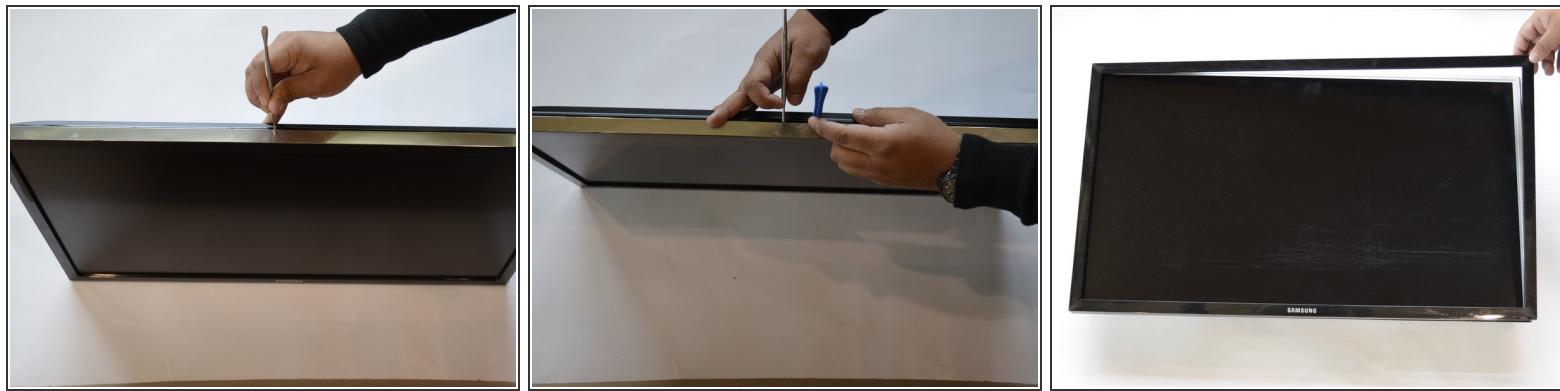

- Start by removing the screen bezel.

- Use a pair of spudgers to pry between the bezel and the rest of the monitor.

- (i) Ideally use plastic tools as this step could damage the edges of the screencover.

- lay monitor on its back and pull off screen cover.

## Step 2

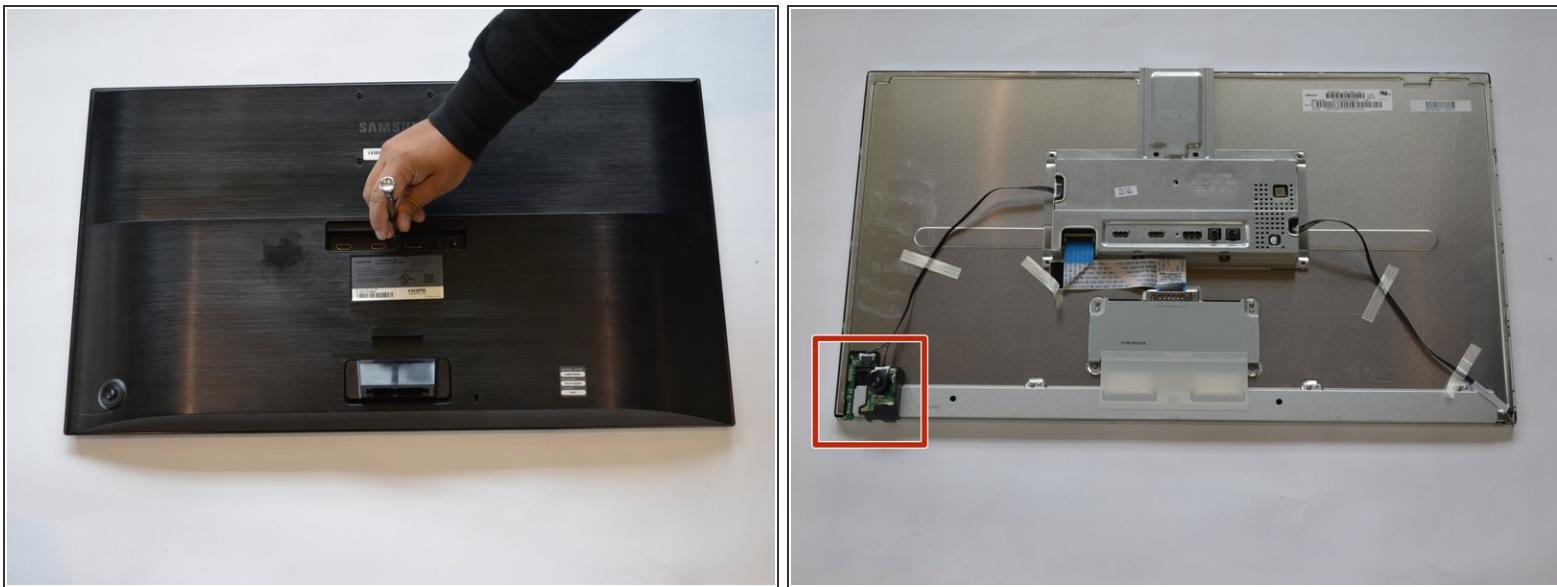

- Flip the monitor over so that it is facedown.

- remove the single screw in the middle using a #2 Phillips screwdriver.

- Remove the backing to reveal the Jog Button.

## Step 3

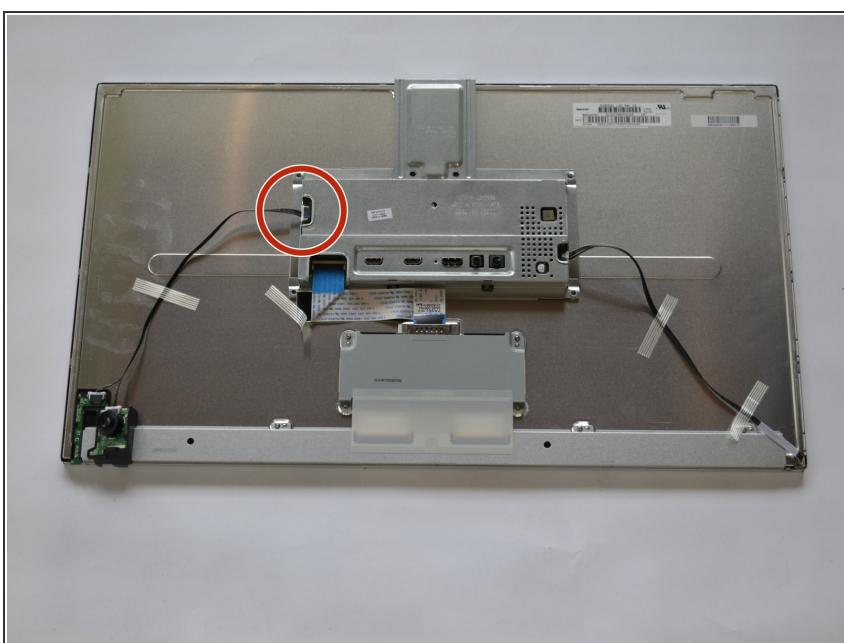

- Disconnect signal cable to power supply board.

- Remove and replace jog button.
