

# Samsung WB150F Memory Card Replacement

How to replace a Samsung WB150F memory card.

Written By: Keith Albergaria

## Step 1 — Memory Card

- Flip the camera upside-down so that the compartment with the battery and memory card is facing you.

## Step 2

- Using your finger, slide the plastic lock-tab to the left.
- The compartment should swing open.

## Step 3

- ⓘ The larger cavity is for the battery.
- ⓘ The small thin cavity is where the memory card goes.
- Press lightly on the memory card to eject it from the camera.

To reassemble your device, follow these instructions in reverse order.
