Samsung WB2200F Flash Option Button Replacement

If the flash does not go off when a photo is taken, the flash option button may be jammed or broken.

Written By: Rachelle

INTRODUCTION

Using this repair guide, the user will be able to replace the flash option button on the device.

TOOLS:

- JIS Driver Set (1)

Step 1 — Battery

- Place the camera upside down on a hard surface such as a table. Make sure that the battery compartment is visible.
Step 2

- Twist the nob counter-clockwise while pushing cover to the left. Then pull the cover up to reveal the battery.

Step 3

- Slide the blue tab to the right to release the battery.

Step 4

- Carefully slide the battery out of the camera. It can then be replaced with a new battery.
