INTRODUCTION

This guide will teach you how to replace or fix the floor hose of your Shark Rocket Professional Vacuum.

TOOLS:

- [Coin](#) (1)

Step 1 — Floor Hose

- Look at the side of your vacuum.
- Identify the button that says "Floor Nozzle."
- Press this button and remove the main body of the vacuum.

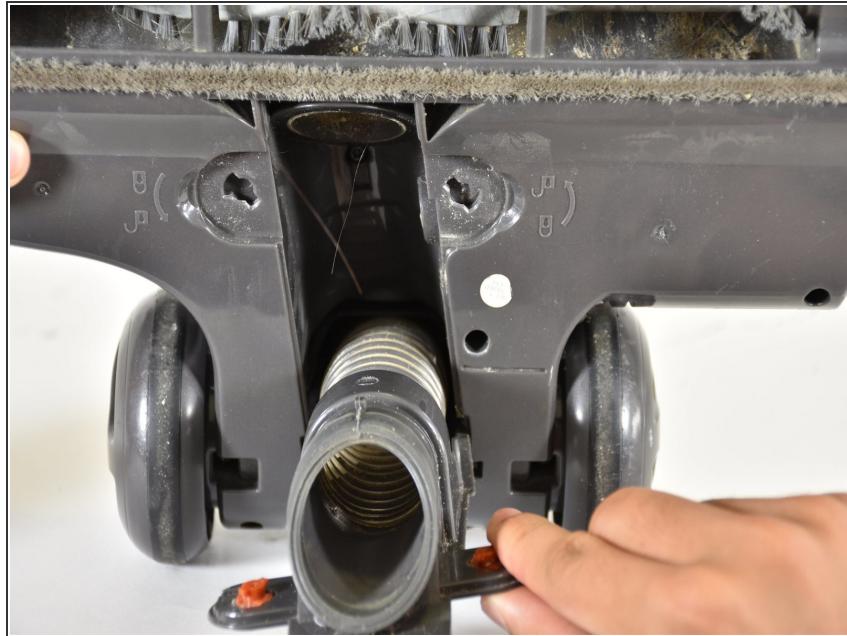

Step 2

- Look at the bottom of the Floor Nozzle.
- Use a coin to turn the orange locking dials counter-clockwise.

(i) If you are unsure, follow the arrows when turning the orange dials because the labeling is confusing.

Step 3

- Use your fingers to pull open the panel locked by the orange mechanism.
- *i* If there is debris stuck in the tube, use a long, thin object to remove it.

To reassemble your device, follow these instructions in reverse order.
