

# SiriusXM Onyx Plus Case Replacement

This guide will show you how to replace the case on a SiriusXM Onyx Plus radio.

Written By: Angel Rivera

## INTRODUCTION

A crack in the casing of the device can cause further problems so it is necessary to change the casing. In this guide we will be showing you how to change the casing on the the SiriusXM Onyx Plus.

### TOOLS:

- [iFixit Opening Tools \(1\)](#)

## Step 1 — Case

- Wedge a plastic opening tool in between the case.

## Step 2

- Starting with the bottom left corner, press down on the plastic opening tool to unhook the latches on the inside of the device.

*(i)* You have to start with the bottom left and right corners, and then flip the device to over and do the top of the device.

## Step 3

- Once unclipped, separate the back casing from the device.

To reassemble your device, follow these instructions in reverse order.
