INTRODUCTION

This guide is for the replacement of the control panel and microphones for the Sonos One.

⚒ TOOLS:

- iFixit Opening Tools (1)
- Spudger (1)
- T8 Torx Screwdriver (1)
- T10 Torx Screwdriver (1)

Step 1 — Protective Cover

- Disconnect all power cords.

- Remove the rubber foot and plastic screw guard on the bottom of the device using a plastic opening tool.

Step 2

- Remove the four 10mm Torx T10 screws from the bottom of the speaker.

Step 3

- Remove the bottom cover by squeezing the protective cover slightly while pushing up with your fingers.

Step 4

- ⓘ The protective cover clip is very thin and deforms easily.

- Remove the single 8mm Torx T10 screw and protective cover clip.

Step 5

- Slide the protective cover upwards to remove.

Step 6 — Control Panel & Microphone

- (i) Use the pointed end of a spudger to remove the covers that hide the screws.

- Remove the four 9mm Torx T8 screws from around the perimeter of the control panel.

Step 7

- With the front of the unit facing you, lift the control panel up using your thumbs.

- ⓘ There's a ribbon cable attaching the control panel to the speaker so work slowly.

Step 8

- Use a spudger to flip up the retaining flap on the control panel ribbon cable ZIF socket.

- Pull the control panel ribbon cable out of its socket.

Step 9

- Pull the control panel away from the speaker to separate.

To reassemble your device, follow these instructions in reverse order.
