

# Sony BDP-BX620 Bluetooth Module Replacement

Removing the Bluetooth module.

Written By: Zachery Zavala

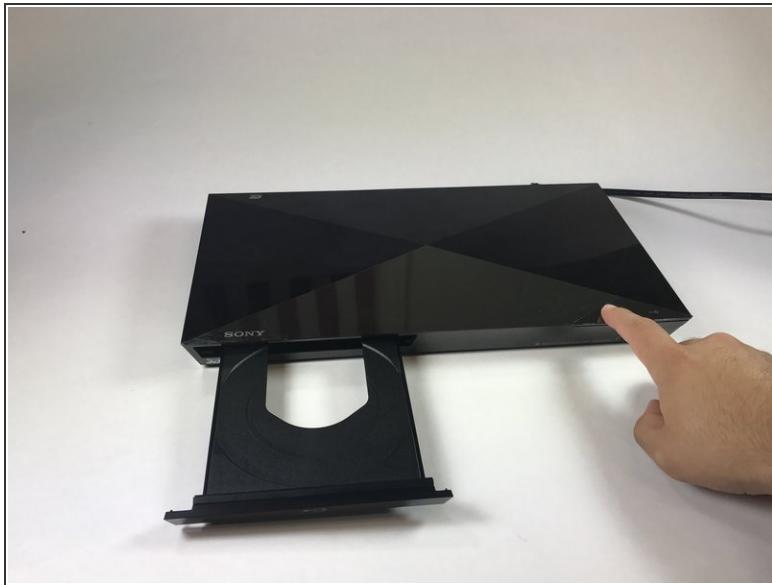

## INTRODUCTION

This guide will show you how to remove the Bluetooth module which controls the Bluetooth functions of the device.

### TOOLS:

- [Phillips #0 Screwdriver](#) (1)
- [Tweezers](#) (1)

## Step 1 — Outer Cover

- Power on the device, eject the disk tray, and power off the device.
- Turn the device over.
- Lightly apply downward pressure on the black covering on the disk tray until it snaps off.

⚠ Caution, applying too much pressure can break the black covering.

## Step 2

- Turn the device around.
- Using a Phillips screw driver, remove the screws on both ends of the device circled red in the image.
- Slide the side covers on either side towards the back of the device.

***(i)*** There is a back cover on either side of the device.

## Step 3

*(i)* This step might require someone to help unclipping the plastic clips.

- Turn the device so that the bottom is facing up.
- In the bottom, unclip the three plastic clips circled in red.
- On either side, unclip the plastic clip circled in red
- Slide the black covering forwards to remove.

*(i)* All five clips have to be unclipped for the covering to be removed.

**⚠** Careful not to break the plastic clips when putting it back on.

## Step 4 — Port Board

- Now, spot the large ribbon cable that connects between the motherboard and the port board.
- Remove the cable by pulling upwards.

! Be careful when pulling upwards on the ribbon cable. Too much force can cause it to rip.

## Step 5

- Use your Phillips screwdriver to take out the silver screw holding in the port board.

## Step 6

- Now use the tweezers to unclip the portboard on the side.

## Step 7 — Bluetooth Module

- Now, pull the small ribbon cable that connects between the motherboard and the Bluetooth module.

 Be careful to not pull too hard or the ribbon cable will rip.

## Step 8

- Use your Phillips screwdriver to remove the silver screw holding the Bluetooth module in place.

## Step 9

- Lift to remove the bluetooth module from the device.

**i** To prevent damage, always hold it on the sides.

To reassemble your device, follow these instructions in reverse order.
