INTRODUCTION

The port board is where the power and eject buttons, the IR sensor and the USB port are located. This guide shows how to replace it.

TOOLS:

- [Phillips #1 Screwdriver](#) (1)
-

Step 1 — Front Panel

- Use the PH1 screwdriver to remove the two 9mm screws on the back of the Blu-ray player.

Step 2

- Remove the back of the device by slowly sliding the rear outer housing backwards.

Step 3

- Turn the Blu-ray over
- Pry open the clips under and on the sides

Step 4

- Once all the clips are open, slide the front outer housing out.

Step 5 — Port Board

- Flip the Blu-ray back up
- Remove the ribbon connecting the port board to the motherboard.
- ⚠ Handle the circuits only on its side.

Step 6

- Use the PH1 to remove the 7mm screw on the port board.

Step 7

- Remove the port board.

To reassemble your device, follow these instructions in reverse order.
