## Step 1 — Charger Adapter

- Power the phone off.

- Press down firmly against the icon on the lower rear panel with your thumb.

- Slide the panel down to remove it.

Step 2

- Lift the battery and pull it out.

- Remove the SIM card too if you have one.

Step 4

- Use an opening tool to remove the camera faceplate.

⚠️ Be careful to not bend the camera faceplate when removing it.

Step 5

- Flip the phone over and use an opening tool to pry off the number pad.

- Separate the keypad from the motherboard.

Step 6

- Remove two T6 Torx screws that secure the motherboard.

- Use an opening tool to remove the motherboard. Pay attention to cables on the motherboard.

- ⚠️ Do not pry too hard on the motherboard, as it can break under too much force.

Step 7

- Pull off charger adapter and remove it.

- ⚠️ Pull evenly on the full width of the cable so that no individual wires are overly strained.

To reassemble your device, follow these instructions in reverse order.
