Sony Ericsson z300 Keypad Replacement

Removing your keypad allows you to replace it if the buttons no longer work or to add some personal flare.

Step 5

- Using your fingernail lift up the side of the casing around the bottom of the phone to release all five of the clips.
Step 6

- Lift up towards the bottom and slide the case off.
Step 7 — Motherboard

- Use a plastic opening tool to lift up the brass colored panel.

Step 8

- Flip up the yellow tab using a plastic opening tool to disconnect the motherboard from the phone body.
