

Sony Handycam HDR-CX220 Lens Replacement

Replace your lens if the image is distorted or you notice dirt on the lens.

Written By: Keven

INTRODUCTION

The replacement of the lens is needed if your videos are not coming out the way you want them to. If you notice that there are dirt or anything unusual on the lens it will ruin every video you take in the future, unless the lens is replaced.

TOOLS:

- [Phillips #0 Screwdriver](#) (1)
 - [iFixit Opening Tools](#) (1)
-

Step 1 — Battery

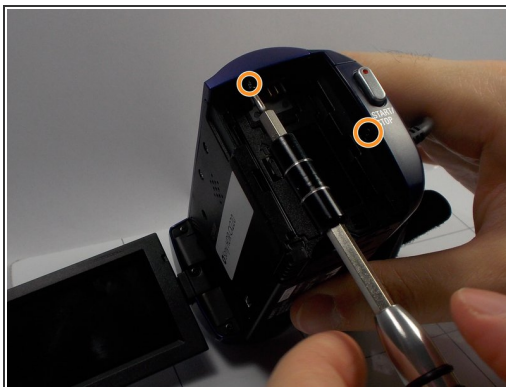

- Push in the battery indicator.

Step 2

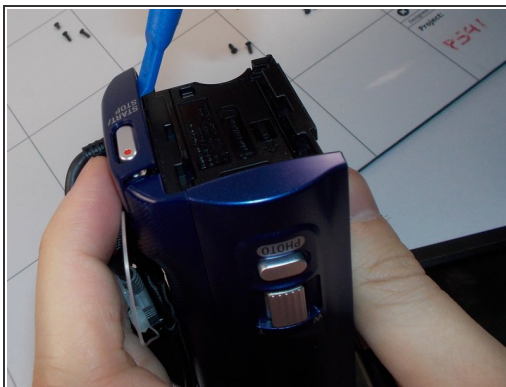

- Slide the battery out of the slot.
- ★ To put the battery back in, line up the battery's metal part with the camera's and slide it in.

Step 3 — Camera's Body
