INTRODUCTION

Laptop screen having connectivity issues? Need to replace the screen connection? Look no further!

TOOLS:

- [iFixit Opening Tools](#) (1)
- [JIS #0 Screwdriver](#) (1)

Step 1 — Sony Vaio Fit 13A SVF13NA1EL Screen Connector

- Flip over the screen
- Remove all 8 screws as shown circled in the image using a Phillips #0

Step 2

- Flip the screen back over.
- Use a plastic spudger to remove the top section of the cover.

Step 3

- Unplug the screen connector from the back of the screen.

Step 4

- Disconnect the ribbon wire from the LCD connector by gently pulling it.

Step 5

- Gently raise the metal framework of the laptop to reveal the remaining portion of the screen connector.
- Follow the ribbon wiring to where it connects to the screen.
- Carefully pull the wiring to disconnect and click it back in place to reconnect.

To reassemble your device, follow these instructions in reverse order.
