INTRODUCTION

The Sony Vaio Fit SVF15N26CXB has a flip screen that makes it different from a regular screen to remove. This guide will show you the necessary steps to take to replace the display. Use the project mat to keep the screws organized.

TOOLS:

- [Anti-Static Wrist Strap](#) (1)
- [Tweezers](#) (1)
- [Spudger](#) (1)
- [Phillips #00 Screwdriver](#) (1)
- [iFixit Opening Tools](#) (1)
- [Magnetic Project Mat](#) (1)

Step 1 — Battery

- Remove the following ten screws from the bottom case of the laptop:
 - Two 6.5mm Phillips #00 Phillips screws.
 - Four 8.95mm Phillips #00 screws.
 - Four 6.25mm Phillips #00 screws.

(i) The screws may be hidden underneath a rubber foot that can be removed with a spudger.

Step 2

- Use a plastic opening tool to separate the bottom cover from the laptop.
- Lift the lower cover and pull away from the laptop.

Step 3

- Remove the eight Phillips #00 screws from the battery:
 - Six 4.65mm screws.
 - Two 4.65mm screws.

Step 4

- Lift the battery up and pull it out of the laptop.

Step 5 — Display

- Open the laptop and rotate the screen to the back side.
- Remove the eight 2.85mm Phillips #00 screws from the back of the screen.

Step 6

- Rotate the screen back and close the laptop.
- Use a plastic opening tool to carefully pry up the back plastic case.
- Remove the back plastic case by sliding it down and pulling upwards.

Step 7

- Remove the thirteen 2.85mm Phillips #00 screws from the screen.

Step 8

- Use a spudger to lift up the black latch on the ZIF connector.
- Pull the display ribbon cable out of the ZIF connector.

Step 9

- Remove the display cable peeling up the tape.
- *(i)* The display cable locking mechanism is attached to the tape.

Step 10

- Remove the display.

To reassemble your device, follow these instructions in reverse order.
