Step 1 — Battery

- Position the laptop screen-side down as shown.

- In this position the battery housing will be located on the right hand side.

Step 2

- Lift the panel up and then out to gain access to the battery.

Step 3

- Use the indentations to pull the old battery out.

Step 4

- The battery is now removed and it is safe to move on to uninstalling other components.

Step 5 — Floppy Drive

- With one hand slide and hold the tab shown.

- With your other hand, pull the floppy drive out of the floppy drive bay.

- To replace the floppy drive, simply slide the drive into the slot until it clicks.

To reassemble your device, follow these instructions in reverse order.
