Step 1 — Front Camera

- Power off the phone and remove two SIM card trays before replacement.

Step 2

- Heat to soften back cover adhesive sticker.

- Use suction cup to open a gap and insert into the guitar pick. Slide the guitar pick to cut the sticker.

Step 3

- Remove back cover carefully and avoid cracking the glass.

Step 4

- Remove battery or not is optional. Remove it makes the replacement convenient while keep it also will not block the replacement.

Step 5

- Remove screws at first.
Step 6

- Remove three pieces of securing bracket.

Step 7

- Release all the connectors connecting with motherboard.

- Pry the motherboard up from left side and remove it. The motherboard is hold tightly by some hidden keys, so you should be very careful.

Step 8

- Release the connector and pull out the flex at first, please be careful as you can.

- Remove the front camera finally.

To reassemble your device, follow these instructions in reverse order.
