

# Spin Master Hatchimal Draggle Plastic Wing Replacement

This guide will explain how to remove the clipped wing on the Hatchimal Draggle.

Written By: Kimberly Searles

## INTRODUCTION

The clip on the plastic wing can break from rough play time. This guide shows you how to remove the wings.

### TOOLS:

- [iFixit Opening Tools \(1\)](#)

## Step 1 — Plastic Wing Replacement

- lay the Hatchimal on its side.

## Step 2

- Using the plastic opening tool, push in on the purple clip.

## Step 3

- Pull the wing off of the hatchimal.

***i*** The wing should come off with little resistance.

To reattach a wing, slide the new wing on until it clips in place.
