

# Spin Master Hatchimal Draggle Wheels Replacement

This guide will explain how to replace a wheel on the Spin Master Hatchimal Draggle.

Written By: Humaid Alhajri

## INTRODUCTION

Sometimes rough play can cause the wheel to break or not spin anymore. This guide will show you how to remove the wheel.

### TOOLS:

- [Phillips #00 Screwdriver](#) (1)
- [Utility Scissors](#) (1)
- [Spudger](#) (1)
- [iFixit Opening Tools](#) (1)

## Step 1 — Plastic Wing Replacement

- lay the Hatchimal on its side.

## Step 2

- Using the plastic opening tool, push in on the purple clip.

## Step 3

- Pull the wing off of the hatchimal.

*(i)* The wing should come off with little resistance.

## Step 4 — Fur Replacement

- Cut the fur retaining zip-tie with a pair of scissors.

## Step 5

- Lift the fur up until it can't go further.

## Step 6

- Use the spudger tool to push up on the black clip to free it.
- Pull the clip out.

## Step 7

- Lift fur up to reveal the next set of clips.
- Insert a spudger to push up on the black clip to free it.
- Pull out the clip.

## Step 8

- Lift the fur up and over the Hatchimals Head.
- Remove the six 12mm Phillips #00 screws from then body.

## Step 9

- Pull the casing apart.
- Remove the yellow speaker cable.

## Step 10

- Remove the three 7mm Phillips #00 screws from the head.
- Remove the wheel base and the circuit board carefully not to damage the spring.

## Step 11

- Push the six black fur clips out using the spudger.
- Remove the fur completely.

## Step 12 — Wheel Replacement

- Lift up and remove the light blue plastic casing.

## Step 13

- Remove the six 7mm Phillips #00 screws.

## Step 14

- Remove the purple plastic casing. It should come off with little resistance.
- Remove the wheel.

To reassemble your device, follow these instructions in reverse order.
