

SteelSeries Apex 64145 Rubber Stand Replacement

Replace the broken rubber stand on the back of the keyboard.

Written By: Zwe Phone Shein

INTRODUCTION

Keyboard rubber stands serve an important role in typing quality, whether it be for gaming or common use. They ensure that the keyboard remains balanced, and that it does not move when used on a smooth surface. You will be taking out the broken rubber stand with a plastic opening tool and inserting the new replacement in the slot.

TOOLS:

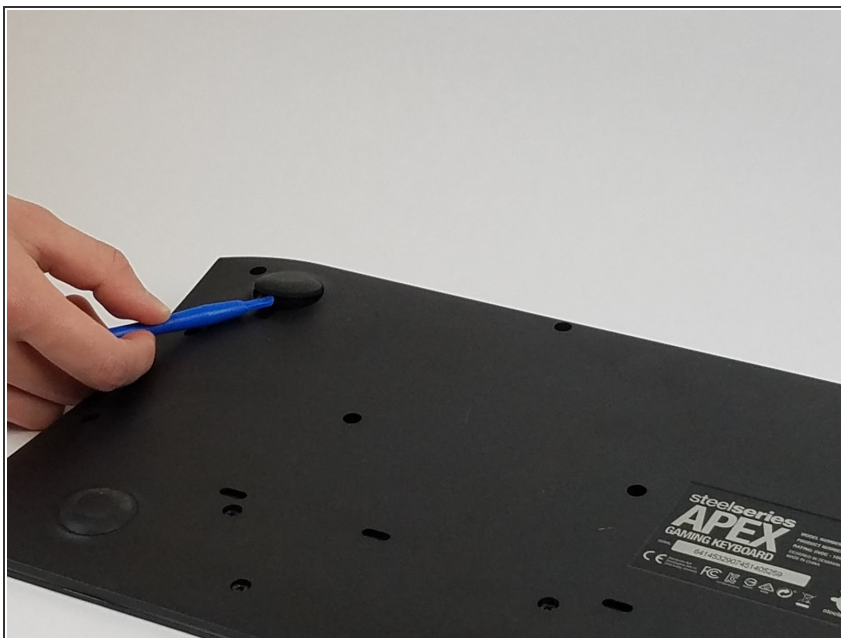

- [iFixit Opening Tools](#) (1)
-

Step 1 — Rubber Stand

- Unplug the computer from the keyboard.

Step 2

- Gently pry out the rubber stand with the plastic opening tool.

Step 3

- Remove the damaged rubber stand from slot.

To reassemble your device, follow these instructions in reverse order.
