# SuperSonic Matrix Mid SC-999 Back Cover Replacement

This guide will show you how to remove the back cover, granting you access to the device hardware.

Written By: Harris Dagha

INTRODUCTION

This guide will simply show you how to remove the back cover of the device. Very minimal effort is required to achieve this task.
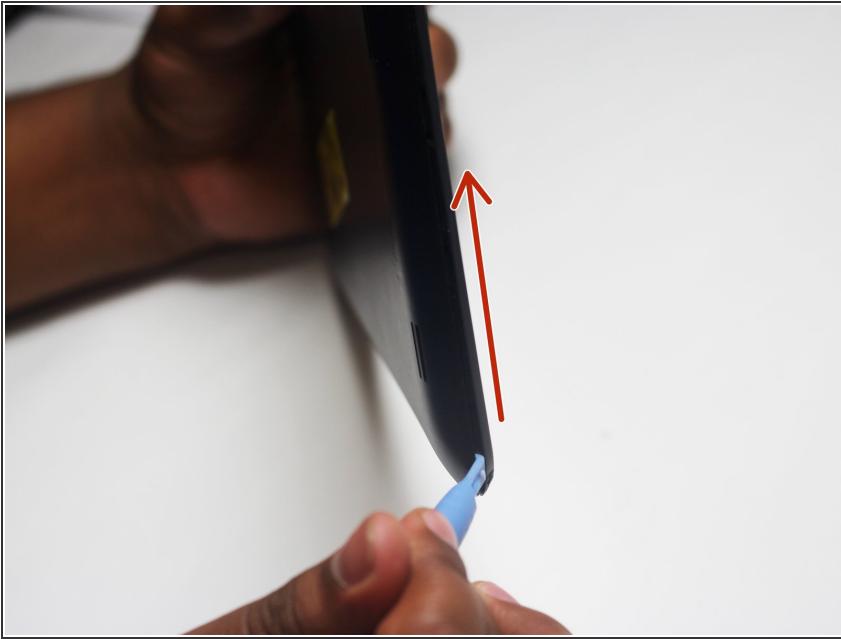

⚙ ## PARTS:

- iFixit Opening Tools (1)

Step 1 — Back Cover

- Wedge the plastic opening tool between the back cover of the device and the front panel.

- You will hear a *snapping* sound as the cover is separated from the body of the device.

Step 2

- Slide the opening tool along the seam between the front panel and the back cover to un-clip the remaining connections around the device.

- Again, you will hear a *snapping* sound as the cover is separated from the body of the device.

Step 3

- Lift the back cover from the body of the device to expose the internal components.

To reassemble your device, follow these instructions in reverse order.
