---

## INTRODUCTION

In this guide, you will remove the internal hardware of the device to replace the back cover.

### TOOLS:

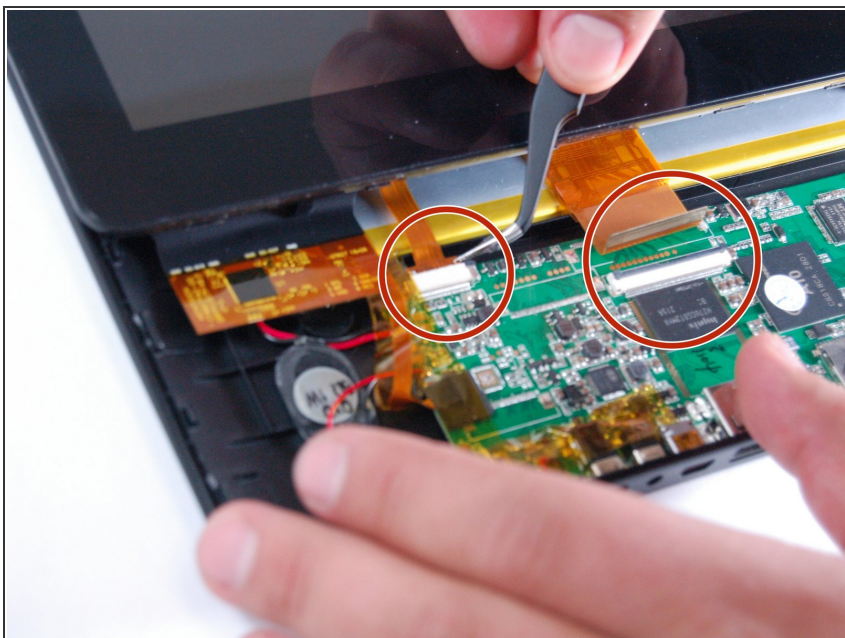

- [Tweezers](#) (1)
  - [Spudger](#) (1)
-

## Step 1 — Back cover

- First, separate the halves by wedging it open with the wedger.

## Step 2

- Next, carefully remove the display ribbons from the motherboard by using tweezers.

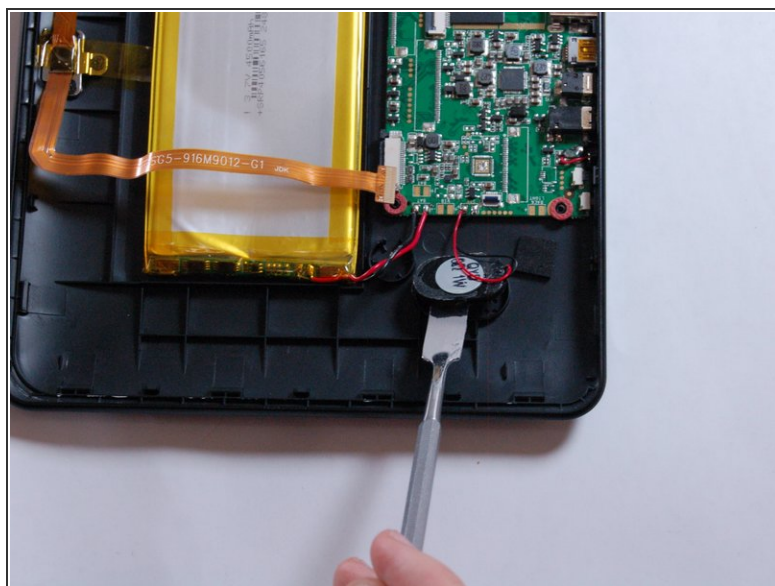

## Step 3

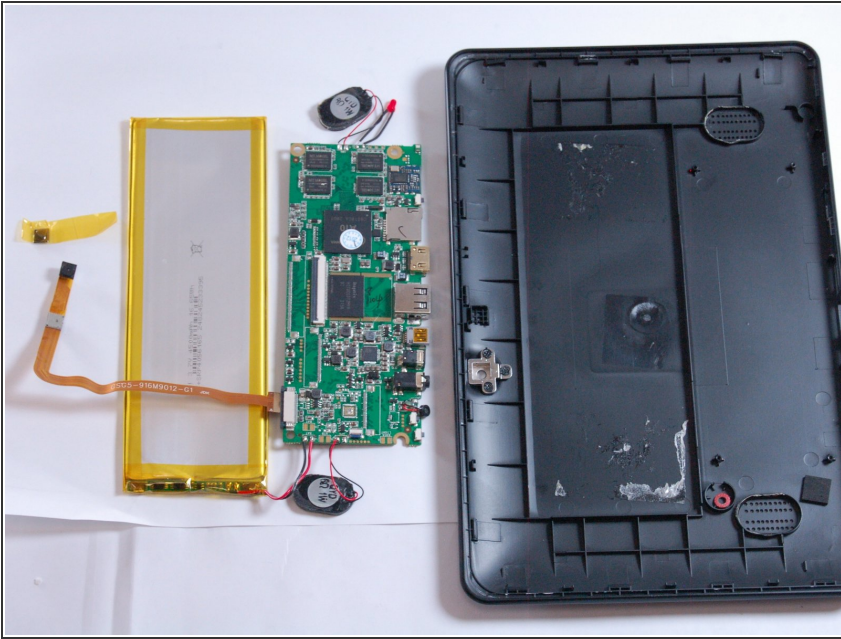

- Then, remove the battery from the back cover by using the wedging tool.
- ⓘ You might have some difficulty removing due to glue holding the battery in place.

## Step 4

- Now pop off the speakers with the wedger.
- Remove 3 Philips screws from the motherboard and then remove the motherboard.

## Step 5

- Lastly, make sure you have removed all of the excess pieces from the back cover.

To reassemble your device, follow these instructions in reverse order.
