

Swiffer SweeperVac Pad Replacement

This guide will show you how to replace the Swiffer pad on your Swiffer SweeperVac.

Written By: Richard Solomon

INTRODUCTION

Your Swiffer SweeperVac needs a clean, static-cling pad in order to help the vacuum pick up debris. This guide will show you how to replace your dirty or torn Swiffer pad.

PARTS:

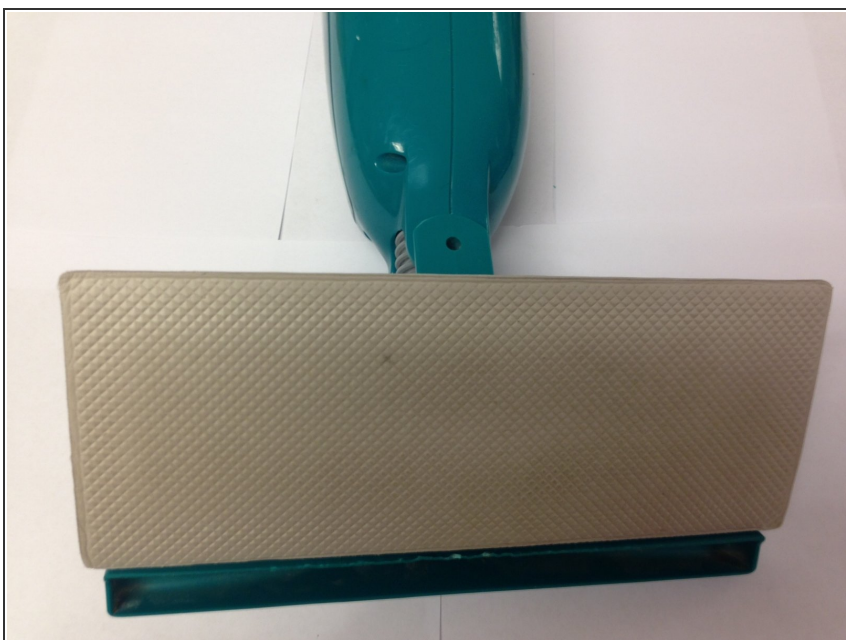

- [Swiffer pad](#) (1)
-

Step 1 — Pad

- Begin removing the old pad by pulling from the four corner retainer sections.

Step 2

- Ensure the bottom surface is free of any debris before replacing new pad.

To reassemble your device, follow these instructions in reverse order.
