

# TI-84 Plus Disassembly

just taking everything apart

Written By: martijn muntenaar

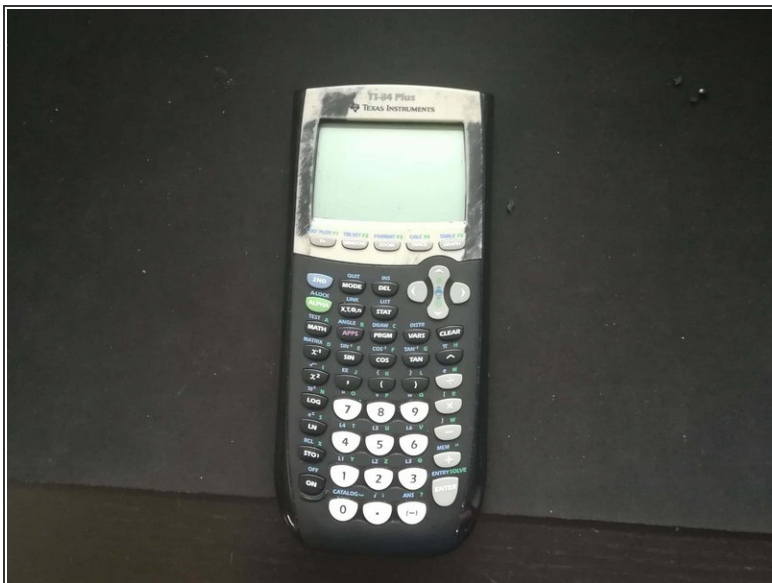

## TOOLS:

- [TR6 Torx Security Screwdriver](#) (1)
  - [Phillips #0 Screwdriver](#) (1)
  - [Spudger](#) (1)
  - [iFixit Opening Picks set of 6](#) (1)
-

## Step 1 — flip

- take off the cover and flip it over.

## Step 2 — battery plate.

- press it down
- lift it up.

### Step 3 — take out the batteries

- remove the batteries.
- you can use the battery cover as a plate to keep the batteries

### Step 4 — back up battery

- use philips #0 to remove the plate from the back up battery.

## Step 5 — back up battery

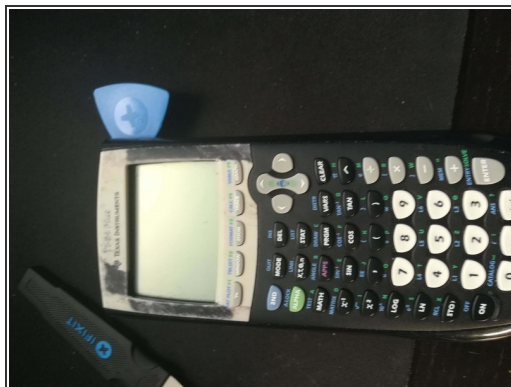

- remove the back-up battery with either a screwdriver or the spudger.

## Step 6

- you can use a t6 or tr6 to take out all six marked screws

## Step 7 — cracking the case

- use the a prying tool to get a pick into the side and then move it down untill its open.

To reassemble your device, follow these instructions in reverse order.
