

# Texas Instruments TI-80 Batteries Replacement

This guide shows you how to remove batteries to replace them.

Written By: brian decater

## INTRODUCTION

Batteries, over time, run down and lose power. This guide will help you remove and replace dead batteries.

## Step 1 — Batteries

- Locate battery cover on the back of the case.
- Slide battery cover to the right reveal the batteries.

## Step 2

- Remove battery cover.
  - Slide the red lock down.
  - Slide the metal tab to the right of the top battery.
  - Remove the 3-Volt Lithium Coin Cell Battery.
- Slide the red lock up.
  - Slide the metal tab to the right of the bottom battery.
  - Remove the 3-Volt Lithium Coin Cell Battery.

To reassemble your device, follow these instructions in reverse order.
