

# ThinkPad Yoga 12 Heasink & CPU Fan Replacement

How to replace the CPU fan for the Lenovo Yoga. Noise fan replacement

Written By: David Staeheli

## INTRODUCTION

How to replace the CPU fan with its headsink for the Lenovo Yoga 12. Not super easy but can be done by your self.

Fan description for buying:

- [Cooling Fans Heatsink For Lenovo Thinkpad S1 Yoga 04X6440.](#)

### TOOLS:

- [Phillips #00 Screwdriver](#) (1)
- [Spudger](#) (1)

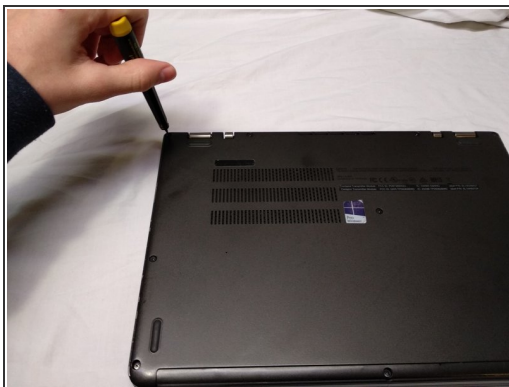

### PARTS:

- [CPU Cooling Fan with Heatsink For Lenovo ThinkPad Yoga S1 / ThinkPad Yoga 12 04X6440](#) (1)
- [Thermal Grease](#) (1)

## Step 1 — Bottom Cover Removal

- Remove the nine Phillips screws using a Philips 00 screwdriver

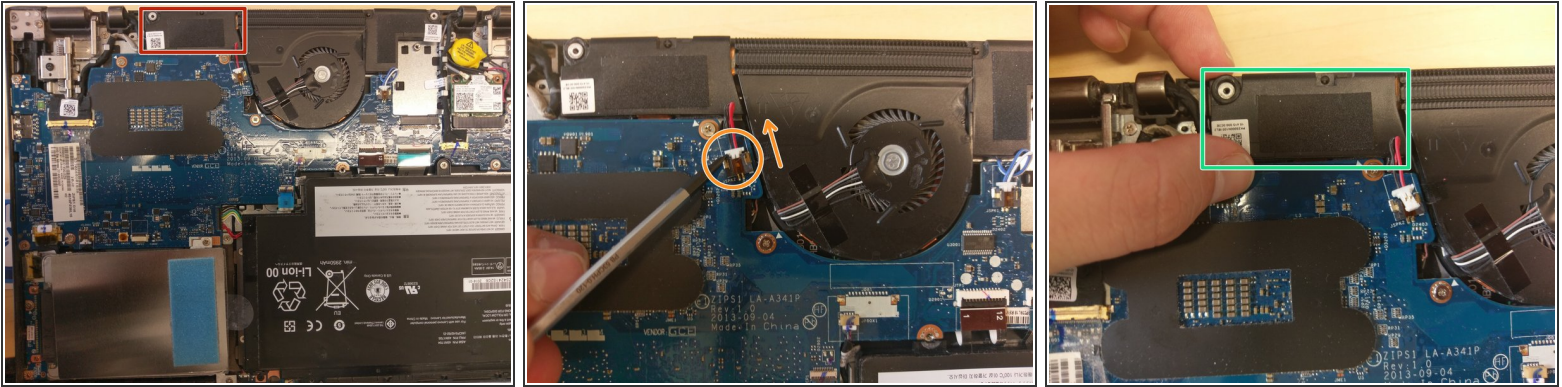

## Step 2 — Prying

- Pry up the case carefully using a spudger.

⚠ Make sure to not push the spudger in too far, as this could result in internal damage

### Step 3 — Remove Speaker

- Top speaker left which needs to be removed to reveal the cooling system
- Push out the plug for the speaker in the direction of the arrow.
- Grab the speaker on the top an bottom and pull it out.

### Step 4 — Remove Right Fan

- Insert wisdom here.

To reassemble your device, follow these instructions in reverse order.
