

TomTom GO Live 1535M Reset Button Activation

In this guide we will learn where the reset button is and how to use it.

Written By: Mathias Sagide

TOOLS:

- [Paper Clip](#) (1)
-

Step 1 — Reset Button

- The reset button is the tiny hole located towards the bottom of the device close to the charger port.
- Use a paper clip to slip inside the tiny hole and press down until you hear a click.
- Hold for 15 seconds.
- ⓘ If done correctly the device should turn on by itself with its factory default settings in place.

To reassemble your device, follow these instructions in reverse order.
