

Top Removal

A short guide on how to disassemble the top of your blender. You will need a Phillips head screwdriver for this. It's quite easy.

Written By: Kamal Taha

INTRODUCTION

We are going to teach you how to disassemble your Master Prep.

TOOLS:

- [Phillips #2 Screwdriver](#) (1)
-

Step 1 — The Ninja Master Prep QB900B

- Place the blender to the side.

Step 2

- Remove the two highlighted screws with a Phillips #2 Screw Driver
- Gently pull off the top.

To reassemble your device, follow these instructions in reverse order.
