## INTRODUCTION

This guide will show users how to replace the battery in a Toshiba Dynabook. This process includes pulling the release tabs for the battery.

## Step 1 — Battery

- Push apart the two spring loaded plastic tabs labeled #1 and #2.

⚠ Make sure to unplug any external power sources before working on the computer.

## Step 2

- The battery is now easily removed by pulling up from the notched tab on the inside edge.

To reassemble your device, follow these instructions in reverse order.
