

Toshiba Dynabook T552-58G Space Bar Replacement

This is a replacement guide for the space bar of a Toshiba Dynabook T552-58G.

Written By: Lilly Pilkington

INTRODUCTION

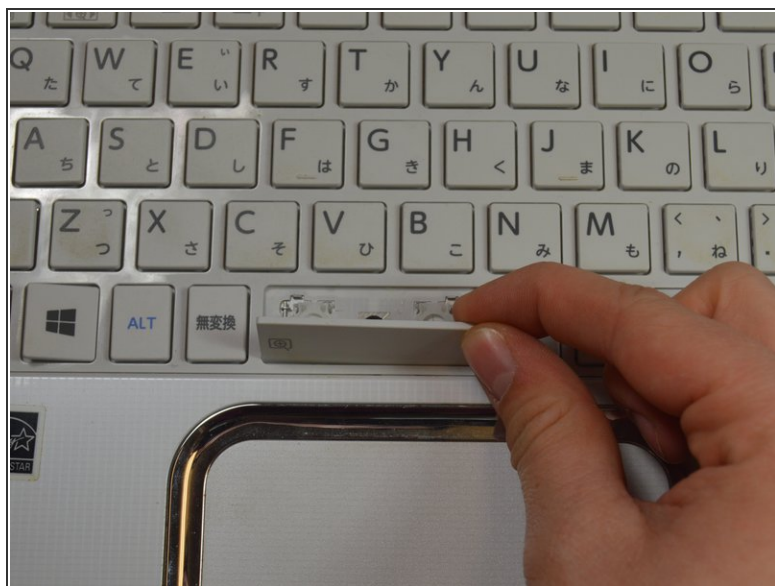

This guide will walk you through replacing a spacebar on the Toshiba Dynabook T552-58. There are no tools required for this guide.

Step 1 — Space Bar

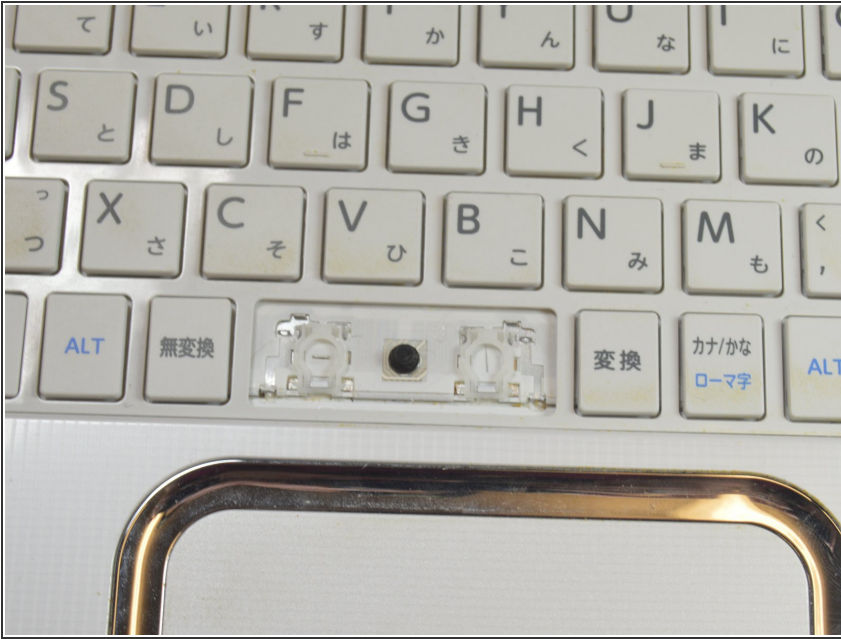

- The space bar is located on the bottom of the keyboard.

Step 2

- Gently pry the broken space bar up with from the back with your finger.

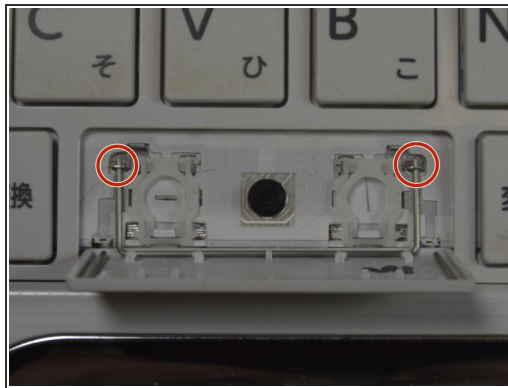

Step 3

- You should now see the key retainer.

⚠ Do not remove anything else because this is crucial for replacing the key.

Step 4

- Gently lift up the bottom metal prongs.
- Insert the two ends of the prong into the small metal loops located at the top of the key pad.
- Gently press the key down until you hear a click.
